

Clam Flange[®] fact sheet

Regular stainless steel grab rail suited to washroom and commercial bathrooms. Features include a mounting plate with notched lugs which firmly secure the domed push on cover in position.

About Clam Flange[®] Format

Featuring a 76mm pre-formed wall mount plate with 5 fastening points, the Clam Flange[®] range also benefits from a continuous weld joint concealed by the 78mm domed push on cover.

Installing Clam Flange[®] Grab Rails

Grab rails with Clam Flange[®] must be fitted to a solid wall or other firm surface and installed by qualified trades people. Con-Serv[®] grab rails will support loads in excess of 113kg when correctly installed, complying with accessibility guidelines of AS 1428.1- 2009.

Fixing to brickwork, blockwork or concrete use stainless steel 50mm x 14g self tapping screws.

Fixing to timber use stainless steel 50mm x 14g self tapping screws.
